Fall is definitely on the way. The days are shorter, the leaves are turning and volunteers at Maine quilts are busy selecting classes for the 2019 show. It is exciting to see all of the activity that goes on behind the scenes to make the quilt show a success each year. As you can see pictures are worth a 1000 words.

This year's charity was Women Heart. An organization that supports Women's heart health which is something we should all care about. In case you missed it members brought in red scarves to support women with heart disease. The piles of red scarves were an impressive sight to see. What a generous group of people!! At the 2019 show we will be supporting Domestic Violence programs in the State of Maine. More details are on the way.

In case you missed it, here is a picture of the beautiful quilt raffled at the 2018 show. The proceeds from the raffle help to fund Maine Quilts and its' programs. Each year chapters or individuals donate their time and talent to create a wonderful quilt. Support this wonderful cause and get a chance to create or win a masterpiece.
