Starlit Pathways and *Flashpoint* use tools with the same instructions. The *Starlit Pathways* pattern has 3 sizes (81" x 81", 81" x 109", 109" x 109"). Information to make a smaller (53" x 53") size will be provided in class to those owning this pattern. The *Flashpoint* pattern has 1 size (66" x 66"). Information to make both a larger (94" x 94") and a smaller (38" x 38") size will be provided in class to those owning this pattern. Fabric requirements for all sizes for both patterns are included at the bottom of the corresponding precutting page.

Required precutting

To maximize your opportunity to practice how to use the tools, it is imperative that you have your precutting done. Be sure you do the precutting for the pattern you will be working on. The cutting does not vary by size desired. If you have the pattern you may want to cut more but don't be too eager. I will be sharing some tips that will save you time and fabric in class. Note that for *Flashpoint*, I cut all the squares for the Half Square Triangles at 4-3/4" square rather than the pattern's 4-1/2" square. That extra 1/4" makes a difference in ease of squaring up.
