

# How to Quilt Any Size Quilt... Workshop - Adele Scott

[asds@adelescott.com](mailto:asds@adelescott.com)

There are many ways to deal with the bulk of machine quilting. Learn some of the creative methods quilters have come up with to solve this problem. The right prep, products and techniques will get you quilting those larger quilts.

Any quilt can be quilted in “sections” but the method you use will depend on the quilt pattern, at what point you decide, and the materials used.

## Student Supply List:

Class fabric kit – cut and label your own [cutting list in a separate attachment]

**or** click to purchase kit - [How to Easily Quilt Any Size Quilt Kit](#)

Good sewing machine [must do zigzag] with all regular accessories, sewing manual.

Walking foot, ¼” foot, blind hem or zipper foot

Optional – *Westalee Ruler foot & SashLee Ruler* - I’ll do a demo with this foot/ruler but unless you want to change over your machine to free-motion we’ll use your regular sewing foot.

Neutral colored thread

General sewing supplies – scissors, cutter, ruler, pins, quilters clips, fabric marker for light & dark, etc.

optional but recommended – *Roxanne’s “Squeezy bottle” glue, or Seam Align glue [available at my vendor booth]*

Any quilt patterns, pictures, or existing quilts to discuss if you’d like.

The products below will be discussed and demonstrated in class; have them available **if** you own. **You do not need to have all of these for class.**

I’ll show you how to use these products and explain their value to you. These will be available to purchase on the [www.AskAdele.com](http://www.AskAdele.com) website or at our vendor booth, if you’re interested, after you see what they’re for and if it applies to your type of quilting.
